Little Trouble Expected in Solving Constitutional Question.

y the Associated Press.
DES MOINES, Iowa, February 4. Gov. N. E. Kendall received a telegram from Senator W. S. Kenyon today stating that he will not resign his seat to accept the appointment of circuit judge of the eighth district the constitutional question raised has been settled.

opinion was expressed here that the obstacle reported from Washington as possibly preventing Senator Kenyon from accepting the judgeship could be easily surmounted. It was pointed out that while it is illegal for a member of Congress to accept a position of which the salary has been increased during his term of office, there is nothing to prevent Senator Kenyon from taking the judgeship at the salary in effect before the last increase. Congress could then pass a bill increasing the salary of the eighth district separately.

Gov. Kendall has made considerable progress in the matter of selecting a successor to Senator Kenyon, he indicated in an interview. He has practically decided, he said, to name a man who will not be a candidate in the June primaries and will, therefore, serve only until his successor is elected. This man, it appears, will be a "dark horse."

Gov. Kendall said this man must be Gov. Kendall said this man must be from a northern district and one who would continue the work which Senator Kenyon had been doing for the farm bloc. He also must favor adjusted compensation for the soldiers and stand for the enforcement of the eighteenth amendment, the governor declared, but gave no indication of his possible selection.
